

Frequently Asked Questions Landscaping

- 1. How will landscaping be restored after excavation?**
Homeowners will meet with a landscaping professional on an individual basis to discuss the restoration of remediated areas to like or better conditions. This includes the landscaping for the front, back and side yards, re-painting of homes and replacement of driveways. New landscaping must comply with current ordinances and City and State water use restrictions.
- 2. If walls/fences between properties need to be removed for excavation, how will they be replaced if the current wall/fence location is not properly located along the property line?**
Following remediation, all exterior walls and fences will be replaced pursuant to current code and property lines.
- 3. If my home is not being remediated, will you still landscape and paint my home?**
Yes. Homes in the Carousel community that are not being remediated will also be re-painted and re-landscaped.
- 4. What do I do if I have a question about landscaping?**
Please call the Carousel Community Information Hotline at (310) 857-2335.
